

## Secure. Simple. Affordable

Home Backup from GLC Secure Cloud Online Backup.

Backup Up to 5 PCs with One Account

GLC lets you backup up to five computers with one, simple account. With GLC Secure Cloud Online Backup, all of your PCs are simply managed; no more juggling multiple accounts.

## GLC's Continuous Data Protection

**Engage Live Protect™**, GLC's Continuous Data Protection detection feature that backs up files as soon as a change is detected. As soon as you modify a file on any of the PCs on your account, GLC will back up your data instantly. When you need to access the file, whether it be from another computer or share it with a colleague, the latest version is always available.

## Access Your Backed Up Files on the Web

All data you have backed up can be accessed from any browser! Because your data is being backed up to the GLC Secure Cloud, you can access your data anywhere in the world by simply getting online. Never be without a critical file again.

## Share Your Backed Up Files Online

With **GLC Secure Cloud Online Backup**, any of the files that you've backed up can be shared simply – all you need is an email address. Never have a large attachment bounce again. Select as many files as you'd like to share with friends and colleagues. If you're a home user, share photos or videos with ease.

## Select Which Files to Backup Online

With **GLC So Simple File Select**, you can specify to GLC what type of files to back up. Select picture files, movie files, document files, or anything else. GLC So Simple File Select makes sure the right data is protected in the simplest way possible.

## Unlimited Versioning

Unlike many other solutions, GLC will keep a backup of each and every version of every file that you ever backup with us. With this type of protection you never have to rename files or make new copies of file versions, you're always protecting a file that could have been lost forever. GLC protects it all!

## Archiving

**GLC protects and archives** all of your files that you have ever backed up. Unlike other services, you can feel secure that once you've backed up a file with GLC, it stays backed up. We do not auto delete any of your files. GLC protects all of your data, all of the time

## Schedule Your Online Backup with Complete Flexibility

With GLC Secure Cloud Online Backup, you have the flexibility to schedule monthly, weekly, daily or hourly backup. You also have the ability to perform an instant backup. Instead of running constantly, taking up valuable CPU and RAM resources like other online backup systems, GLC runs when you schedule it, keeping you safe and optimizing your PC's performance.

## Powerful Recovery of Your Online Backup

GLC keeps an unlimited version history of all your files, allowing you to roll back to any version of any of your files. Use our time machine feature to go back to the date you want to restore and recover that snapshot of files & versions.

## Military Grade Security

**GLC Secure Cloud's three-tiered security system** provides complete data security and privacy protection. The level of encryption used by GLC Secure Cloud is frequently used by the US military. GLC provides an additional encryption option called UltraSafe™. Ultrasafe encrypts your data with a password that only you can ever access.

Data secured by **GLC Secure Cloud** is goes through the following three-tiered encryption process:

- Locally encrypted at 256AES
- In transit at 128bit SSL
- At the data center at 1024bit AES
- At the point of log in with UltraSafe™
